Those wanting to build eco-friendly homes can gather some fresh ideas at an open house Wednesday from 2 p.m. to 8 p.m., hosted by Streamline Enterprises Ltd. in downtown Abbotsford.

The design firm specializes in new construction, particularly log homes, with green and sustainable design elements. Their designs are found across North America, and they're even overseeing a house in Denmark.

At the office and showroom, you'll find examples of a green roof and living wall panels [see photo], along with a tantalizing variety of sustainable finishing products, such as cork floors or reclaimed glass tiles, said Chris Bruntlett, who is a senior designer, along with Kevin Simoes.

In fact, they are the exclusive dealers for the region for 15 earth-friendly building products, he said. You'll find Streamline Enterprises at 2644 Montrose Ave., Abbotsford. Call them at 604-854-2966 or visit their website at www.streamlineenterprises.ca.
